

Don't be fooled by those against Measure I or their inaccurate claims. Our community needs Measure I to improve Belmont's roads, public infrastructure, and quality of life.

Measure I was carefully developed after listening to thousands of Belmont residents who have helped determine our community priorities. Vote Yes on I to:

- Start tackling nearly \$40 million in street maintenance and pothole repairs to keep our streets from falling into further disrepair.
- Address almost \$57 million that's needed to repair our outdated storm drains and avoid flooding that threatens our homes, environment, and water quality.
- Maintain 911 emergency response times.
- Ensure that out-of-town visitors pay their fair share toward repairing our streets.

Those arguing against Measure I should have checked their facts. They are WRONG about how much Belmont will receive from new revenue sources. They are WRONG about the tax rate, which would increase to 9.25%, not 9.5% as claimed.

Measure I is not a tax on your home or utilities. Measure I won't apply to food purchased as groceries or prescription medicines. Those who visit Belmont will help pay for repairing our infrastructure.

Financially, Belmont has been a well-managed City and a responsible steward of the public's funds. Measure I requires fiscal accountability via a Citizen's Committee to ensure the money is used as promised.

Don't let Belmont's infrastructure continue to deteriorate. Measure I will help make Belmont an even better place to live!

Join your City Council and neighbors in support of Measure I.
